PORTRY.

SONG TO AN OLD IRISH AIR.

Her blue eyes they b-am and twinkle, Her lips have made smiling more fair, On cheek and on brow there's no wrinkle, But thousands of curls in her hair.

She's little-you don't wish her tailer; Just half through the teens is her age; And lady, or baby, to call her, Were something to puzzle a sage.

Her walk is far better than dancing, She speaks as another might sing; And all by an innocent chaucing, Like lambkins and birds in the spring.

Unskill'd in the airs of the city, She's perfect in natural grace; She's gentle, and truthful, and witty, And ne'r spends a thought on her face.

Her face with the fine glow that's in it, As fresh as an apple tree bloom; And O! when she comes, in a minute, Like sunbeams she brightens the room.

As taking in mind as in feature, How many will sigh for her sake! I wonder, the sweet little creature, What sort of a wife she would make!

CLOSE OF THE WAR.

The revolution was over. Eight years' conflict had ceased, and the warriors were now to separate forever, turning their cers, to take their farewell. weapons into plough-shares, and their camps into workshops. The spectacle, though a sublime and glorious one, was yet attended with sorrowful feelings; for ulas ! in the remains of that gallant ormy of patriotic soldiers, now about to disband, without pay, without support, stolked poverty and disease. The country had not the means to be grateful.

The details of the condition of many of the officers and soldiers of that period, according to history and oral tradition, were melancholy in the extreme. Possessing no means of patrimonial inheritance to fall back upon-thrown out of even the perilous support of the soldier, at the commencement of winter, and hardly fit for any other duty than that of the camp-their situation can better be im-

ngined than described. A single instance, as a sample of the situation of many of the officers, as related of the conduct of Baron Steuben. may not be amiss. When the main body of the army was disbanded at Newburgh, and the veteran soldiers were bidding a parting farewell to each other, Lieut. Col Cochran, an aged soldier of the New Hampshire line, remarked with tears in his eyes as he shook hands with the baron :

"For myself I could stand it; but my wife and daughters are in the garret of that wretched tavern, and I have no means of removing them.'

no further use for me.' The Baron was absent for a few moments, and then returned with a silver dollar which he had borrowed.

'There, it's all I could get. Take it. The negro received it with joy, hailed a sloop which was passing down the river to New York, and as he reached the deck, took off his hat and said-'God bless you, Master Baron P

The closing of the mil'tary scenes l am about to relate.

New York had been occupied by Washington on the 24th of November. A few days afterwards he notified the President of Congress, which body was then in session at Accapolis, in Maryland, that as the war was now closed, he should consider it his duty to proceed thence, and surrender to that body, the commisseven years before.

The morning of the 5th of December. 1785, was a sad and heavy one to the remnant of the American army in the city of New York. The noon of that day was to witness the tare well of Wash- of Napolean-"All is vanity." ington-he was to bid adieu to his military comrades forever. The officers who had been with him in solemn counsel, the privates who had fought and bled in the heavy fight," under his orders, were to hear his commands no longer. The manly form and dignified countenance of the "great captain" was henceforth to live in their memories.

As the hour of noon approached, the whole garrison, at the request of Washington himself, was put in motion, and marched down Broad-st., to Francis? tavern, his headquarters. CLASSIFICATION OF SOILS.

The want of some system of classifying soils has long been felt. The arbitrary terms in common use convey no definite idea of the subject.
